

Alpha[®] Free-2.1

SPECIALTY RETAIL • RESTAURANTS • CONVENIENCE STORES • COUPONING

A low-caliper, specialty receipt grade with good imaging characteristics. Manufactured using Vitamin C in creating the printed image, which gives the paper its natural yellow shade. Has a white backside which makes it suitable for flexographic printing for both front and back.

SPECIALTY RETAIL PRODUCTS

Key Features

- Manufactured without BPA, BPS, or other phenol based thermal developers
- Low caliper for longer roll lengths
- Lower basis weight reduces freight costs
- Good imaging for short life applications

Applications

- Low-caliper specialty receipts
- Restaurant

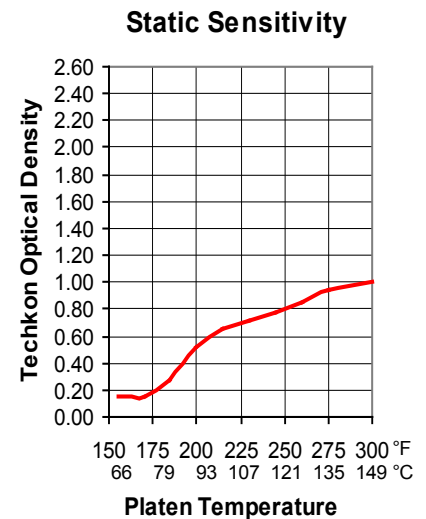

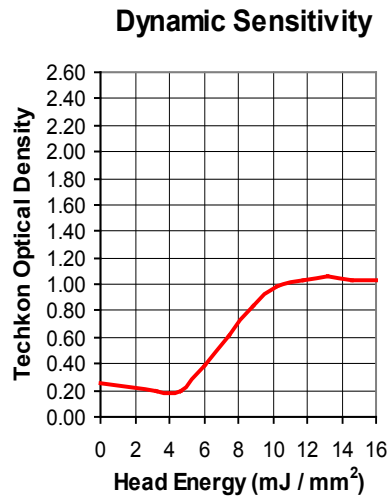

Use of Appvion's thermal products in processing, equipment, end-use or other applications for which they were not intended voids all warranties. Appvion has transitioned to the Techkon densitometers, from the Gretag densitometer, on December 3, 2019.
